

INSTALLATION INSTRUCTIONS: Cosmopolitan Light Box

The Cosmopolitan” is a double-sided, freestanding lightbox display.
 Important: Always ensure that the Cosmopolitan is standing on a flat, secure surface and that the cable is safely positioned (covered/protected) to avoid danger during passage by members of the public. Read carefully the “Technical Details” supplied with this Cosmopolitan concerning conditions of usage.

Installation:

Carefully remove the base section from its packaging (please note the arrangements of the internal protections supplied, for ease of re-packing). Place this base section in its required position as part of your display/exhibition.

Remove the top section from its packaging. Fit the top section to the base by guiding the two connection rods into the slots provided. Important: only one of the connection rods is equipped with electrical fittings and this should be positioned on the same side as the entry of the electrical cable into the base.

You can now plug in your “Cosmopolitan” display.

The side profiles of the “Cosmopolitan” can be opened and closed by hand, just like any standard” click” frame. Position each graphic under the protective anti-reflection sheet (Total of 4 graphics for the 4 “windows” of the “Cosmopolitan”).

Technical Details:

Double-sided, free standing lightbox display manufactured in 2 parts.
 Electrical connection of the top section is automatic when this is slotted into the base section.
 The click-open side profiles enable easy and rapid changing of graphics by hand, without the need for any tool.

Total weight 30 kgs (66lbs)
